Data compiled June 29, 2023.

Analysis based on public banks that trade on major US exchanges with total assets over \$250 billion as of March 31, 2023.

All positions are based on most recent filings.

Stake in banks is calculated as the market value of shares held by investors as a percentage of the total market value of the issuers' shares outstanding.

* Represents positions held in banks out of a total of seven.
